HAMZA BASHAR SALAMEH

Mid-Level Web Developer | IT Engineering Assistant

+963-986-389-578 | Yalda, Damascus, Syria | hamzaeng444@gmail.com | GitHub Profile | LinkedIn Profile

PROFESSIONAL SUMMARY

A highly motivated and versatile IT professional, Web Developer, and App Developer with a solid foundation in software development, database administration, and basic network management. Has foundational experience developing applications, along with web development. Skilled in SQL Server and MySQL, with hands-on experience in IT technical support and customer service within the tech sector. Demonstrates strong capabilities in systems analysis and basic UI/UX conceptualization. Makes effective use of AI tools not only in daily tasks, but in programming and across all aspects of his work, projects, and ongoing development and improvement, alongside his hands-on experience. Primarily builds software through AI-assisted development ("vibe coding"), reflecting how most development today relies on AI tools. Continuously working to grow his skills and currently learning JavaScript, alongside continuous self-driven practice.

WORK EXPERIENCE & VOLUNTEERING

IT Support & Customer Service Trainee *7 Months / Dash Net Company*

- Provided high-quality technical support and customer service, diagnosing and resolving client network connectivity and infrastructure issues.
- Acted as a supervisor, overseeing and organizing the team's daily support operations.
- Earned an official certificate of completion upon successful completion of training.

IT Support Center Trainee *2 Months*

Sarafand School (UNRWA-Affiliated) / Damascus Training Center (DTC)

- Was responsible for providing technical support at the school's IT support center, diagnosing and resolving a wide range of IT-related issues, as part of a structured training program by Damascus Training Center (DTC) in partnership with UNRWA.

Volunteer & Community Engagement Specialist *Volunteer*

EMBS Company

- Contributed to organizing and coordinating the "UNRWA First SparkTech" event held at the Damascus Training Center, working alongside EMBS Company on event planning and on-ground execution.
- Developed strong interpersonal communication, public relations, and organizational skills through structured community initiatives and outreach programs.

"Next Step" Event Participant *August 2026 / You Can Foundation, under the Syrian Ministry of Social Affairs and Labour*

- Attended the "Next Step" event focused on self-discovery, leadership, and entrepreneurship.

KEY PROJECTS

Herafi – Smart Craftsmen & Technical Services Mobile Application *Group Project*

- A smart mobile application connecting clients, craftsmen, and engineers — allowing clients to search for craftsmen, view portfolios and reviews, and book services with flexible scheduling and price negotiation.

Warehouse Management System (WMS) *Group Project / Damascus Training Center (DTC) / UNRWA*

- Developed an automated warehouse management system (WMS) to streamline stock control operations for Damascus Training Center (DTC) / UNRWA.

TECHNICAL SKILLS

- Software & Mobile Development: Flutter (Basics), C# – Windows Forms (Basics), Dart (Basics), Python (Basics).
- Web & Backend Technologies: HTML5 (Advanced), CSS3 (Basics), WordPress (Intermediate), Laravel (Foundational).
- Database Administration: SQL Server (Expert), MySQL (Expert).
- Networking & IT Operations: CCNA Basics (Routing & Switching), Network Management, Hardware/Software Maintenance, Computer Management (ICDL), IT Help Desk Support.

- Design & Productivity: Figma (UI/UX Design), Microsoft Office Suite (Word, Excel, PowerPoint – Advanced), PC Maintenance & Management.
- AI & Tools: Practical experience using AI tools to manage files, support day-to-day tasks, and assist across his projects, with a good understanding of how these tools work and how to apply them effectively. Relies on AI-assisted development ("vibe coding") for most of his programming work.

EDUCATION

Information Technology Engineering Assistant *Graduated: 2026 / Damascus Training Center (DTC) / UNRWA*

- Status: Graduated.
- Prior Education: Specialized Vocational IT Studies during Secondary & High School.

Applied Engineering Information Technology *Damascus University*

- Status: Accepted Student.
